

**Name of the Project: Kimberley Clark – ‘Toilet Change Lives’**

**Name of Funding Organization: Kimberley Clark Corporation**

**Project Duration: 2016- 2017**

**Project Description:**

‘Educating school children on water and sanitation based knowledge, attitudes and practices can make a measurable tangible difference to the grave water and sanitation situation in the world. This however would be possible, only if sufficient water and sanitation facilities are available at the school and an equally knowledgeable teacher block is evolved, who can engrain the correct practices in students, about the right use of those facilities. School sanitation focuses on the responsibility to provide children with a child friendly and healthy learning environment ZP primary school Sanaswadi is one of the two schools undertaken under the school sanitation project being implemented by Ecosan Services Foundation under the project ‘Kimberley Clark Corporation – Toilet Change Lives’. It is expected that the school action plan, with holistic solutions, will be implemented in these schools such that tangible improvements are seen in the students with respect to Water, Sanitation and hygiene (WASH).

- **Work Strategy:** Identify the scope of the project with the funding agency and conduct a baseline survey to understand the current water and sanitation state of affairs of the identified schools.
- **Action Plan:** Analyse the data of the survey and suggest recommendations (technical and financial) in the to improve the status quo of the schools.
- **Proposal Finalization:** Drafting a proposal (technical and financial) and signing of MoU with concerned authorities.
- **Implementation:** Construction/ refurbishment of Water and Sanitation Infrastructure at identified schools in Sanaswadi based on the survey and action plan.
- **Software Trainings:** Awareness raising on correct sanitation and hygiene practices among school children and to engage stakeholders through advocacy on hygiene issues.

Following facilities were provided to the school:

Sr. No	Floor No	Girls Toilet Block	Wash Basins	Boys Toilet Block	Wash Basins
i.	Ground	1 WC 3 Urinals	1	1 WC 3 Urinals	1
ii.	I	1 WC 3 Urinals	1	1 WC 3 Urinals	1
iii.	II	-	-	1 WC 3 Urinals	1
